

# The Archaeology of Man's Best Friend : The Story of Dogs in the Americas with Dr. Michael Wylde

Wednesday March 14, 2018 7 p.m.

Join us as we discuss social connections,  
and the place of dogs  
as artifacts of human culture.

Using case studies, we will explore  
the meaning of dogs  
and seek to understand the diversity of  
dog "breeds" in pre-Columbian America.
