The City of Ormond Beach Department of Leisure Services
Environmental Discovery Center presents

Archaeology Works: Fishing

Florida Public Archeology Network

Thursday, October 4, 2018
11:00 am - 12:00 pm

Fish and other coastal resources were a crucial part of Timucuan diets. Archaeologists can learn about prehistoric fishing through artifact like fish hooks and net gauges as well as finding the fish remains themselves.

During this program, participants will explore various artifacts and fishing techniques through hands on activities.

Space is limited.
