ARCHAEOLOGY WORKS:

N A I L S

Tuesday, March 3

Crisp-Ellert Art Museum
Flagler College

10 am - 1 pm

Come learn about historic nails that kept Florida structures standing for hundreds of years. Then try your hand at analysis the pros use to determine date and use of sites. Participants will learn how to date a nail by its form, measure pennyweights, identify diagnostic bends and evidence for burning, and conserve what we take out of the ground. $10 registration covers workshop supplies.

Contact Ryan Harke at RHarke@flagler.edu or 904-669-3800 for more information.
