ARCHEOLOGY WORKS:

BEADS

Saturday, December 5
GTM Research Reserve
11 am - 1 pm

Beads help archaeologists learn about prehistoric technologies, global trade networks and religious beliefs. Learn about shell and glass beads and how they were made, transported and used. Then try your hand at making and studying them!

For more information, contact Emily Jane Murray at emurray@flagler.edu or 904-392-7874.
