Sea Level Rise: Understanding Impacts on Cultural and Environmental Resources

Join the Florida Public Archaeology Network, the Florida Trust for Historic Preservation and the City of Fernandina Beach to learn how sea level rise could affect historic structures, archaeological sites and other cultural resources. Learn about ongoing research and modeling efforts, discuss options for mitigation and try your hand at planning for rising waters in our area.

For more information, contact Emily Jane Murray at EMurray@flagler.edu or 904-392-7874 or Adrienne Burke at aburke@fbfl.org or 904-310-3142.
