Plants and Animals

DATE: May 2

TIME: 10am - 12pm

LOCATION: Ravine Gardens State Park

Timucuan Native Americans lived throughout Northeast Florida for several centuries. They used materials from the natural environment to craft their tools and construct their homes. Join the Florida Public Archaeology Network at Ravine Gardens State Park to learn how Natives used shells, animal bone, stone, and more! This family-oriented workshop includes an interactive presentation and activities.
