2016 SUMMER FIELD LAB AT 8ES1, LUNA SETTLEMENT
SITE
VOLUNTEERS WELCOME

DATES: All dates are some Tuesdays and Thursdays during June and July:
JUNE, 7, 9, 14, 16, 21
JULY 5, 7, 12, 14

TIMES: 10 AM TO 2:30 PM; there will be a 30-minute lunch break from 12-12:30

WHERE: UWF FIELD SCHOOL HEADQUARTERS, 303 Chipley Ave.
We will be outside under a tent for the field lab work.

VOLUNTEER INFORMATION:
Everyone is welcome to come down to the site to see what we are recovering from the
units. There will be limited seating (8 spaces) available for volunteers to ROUGH SORT
some of the artifacts that have been recovered from shovel tests on the site. Training will
be provided before volunteers work with the artifacts. Some of the artifacts are very
fragile and extreme care is necessary when handling these materials.

RESERVATIONS FOR LAB:
Reservations are available to participate in lab work by calling 474-2087 prior to the day
you wish to attend or by dropping by the site. If no spots are available that day, you may
sign up for another day. First come, first served. Even if a spot to work is not available
when you visit, you are welcome to look over the shoulders of the volunteers to see the
artifacts and learn about this fantastic site. You may come as often as you like. The
FPAN newsletter, the Pensacola Archaeological Society newsletter and the site website
will have all of this information available also.

PARKING:
Parking is available at a place to be announced. It will be nearby, but not right at the field
house. There is not much room to park along the narrow streets in the neighborhoods
without disrupting the residents' activities and parking at the field headquarters will be
limited. Please park in designated areas at all times.

WHAT TO BRING:
Since we will be working outside, please bring water, lunch if you plan to stay the entire
time and maybe insect repellant since mosquitoes are a real possibility. We will be under
a tent so sun or light rain should not be a problem.
