The Archaeology Year in Review

Darwin "Smitty" Smith
Vice President, Time Sifters

This month we will highlight some of the discoveries and events from 2015. It will include the expansion of the Human family tree with the discovery in a South African cave of a new hominid; the results of a two year study of the Hidden Landscapes around Stonehedge; the destruction of ancient sites in the Middle East by terrorists; the 23 new World Heritage sites; discovery of a 5,000 year old Underground City in Turkey; and more.
